Detailed dimensions are measured to the exterior boundaries of the exterior walls and the centerlines of interior demarcation walls. These dimensions may vary from those that would be determined by using the descriptions and definitions of the "Net" and "Gross" in the Description which generally only indicate the ranges between the information stated in general terms and includes minor structural components. All dimensions are approximate, and all floorplans and development plans are subject to change. All drawings, if not corrected will be based upon the dimensions contained in the Description.
