Detailed dimensions are measured to the exterior finish of the exterior walls, and the centerlines of interior dividing walls. These dimensions may vary from those that would be determined by using the description and definition of the "Net" and "Gross" in the Description which generally only indicates the average between the unadorned exterior perimeter walls and includes interior structural components. All dimensions are approximate, and all floorplans and development plans are subject to change. All drawings, if not corrected will be based upon the information contained in the Description.
