*Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of doors, opening walls. These dimensions do not vary from those that would be determined by using the description and definition of the "Unit" set forth in the Description which generally only includes the airspace between the finished interior perimeter walls and includes interior structural components. All dimensions are approximate, and all floorplans and development plans are subject to change. As shown, this plan concept will be based upon the dimensions contained in this Declaration.
